### **STRESS-FREE TRAVEL**

Many cats and dogs associate travel with negative experiences such as a trip to the vet or kennel. Sleepypod mobile pet bed allows a pet to travel safely in the comfort of its own bed, thereby reducing travel-related stress because the Sleepypod is already a trusted part of its everyday life.

The Sleepypod is the ultimate pet travel multi-tasker. It's a carrier, car restraint, and everyday pet bed. Ultra Plush bedding surrounded by a luggage-grade, ballistic nylon base forms the cozy bed that easily becomes a carrier by zipping on its mesh dome. In a car, the Sleepypod becomes a crash-tested car restraint. On the road and at your destination away from home, a pet remains in its own bed through the entire journey.

An optional plug-in Warmer pad accessory slips below the standard Ultra Plush bedding to help keep a pet warm in cooler climates. Optional air mesh bedding helps to keep a pet cooler in warm climates.

### **Crash-tested:**

The Sleepypod was rigorously tested to include the same dynamic crash testing that ensures the performance of child safety restraints. It was tested at U.S, Canadian, and E.U. child safety standards. Watch the crash tests:

- U.S child safety seat standard FMVSS 213 – <https://bit.ly/USSleepypod>
- Canada child safety seat standard CMVSS 213 – <https://bit.ly/CanadaSleepypod>
- E.U. child safety seat standard – ECE R44 – <https://bit.ly/EUSleepypod>

**Independently tested and certified:**

The Sleepypod has been proven in independent testing by the Center for Pet Safety to be one of the safest car harnesses in an auto collision, earning the highest possible Five Star rating. More at <http://www.centerforpetsafety.org/cps-certified/>
