Sleepypod Mini

Category: pet carrier, pet bed

STRESS-FREE TRAVEL: Many cats and dogs associate travel with negative experiences such as a trip to the vet or kennel. **Sleepypod Mini** is more than a pet carrier; it is a mobile pet bed that allows a pet to travel safely in the comfort of its own bed, thereby reducing travel-related stress because Sleepypod Mini is already a trusted part of its everyday life.

Sleepypod Mini is three products in one: a carrier, a pet bed, and a safe car seat. It is also small enough to fit under most airline seats. Ultra plush bedding surrounded by a luggage-grade, ballistic nylon base forms the bed that easily becomes a carrier by simply zipping on its mesh dome. In a car, the crash-tested Sleepypod becomes a safe car seat. On the road and at your destination away from home, a pet remains in its own bed through the entire journey.

Four Seasons of Comfort: Sleepypod Mini can be augmented with a four seasons system of accessories. Air Mesh hammock bedding to help keep a pet cool in warmer climates and a plug-in Warmer pad that slips below the standard Ultra Plush bedding to help keep a pet warm in cooler climates.

Sleepypod Mini was crash tested at the standard set for child safety restraints. It is proven to be one of the safest carriers in an auto collision. Watch the crash test at:
