Sleepypod® Announces Limited Edition Critter Kit Accessory for its Award-winning Sleepypod Mini Mobile Pet Bed
Turns Sleepypod Mini for Dogs and Cats into Small Critter Carrier for Ferrets, Guinea Pigs, Hamsters, Chinchillas & Hedgehogs

Pasadena, Calif.—May 2, 2012—Sleepypod, a Pasadena-based company recognized for redefining pet products, today announces that it will sell on its company web site a Limited Edition Critter Kit for its award-winning Sleepypod Mini mobile pet bed. The Critter Kit is an accessory designed to turn a Sleepypod Mini mobile pet bed for dogs and cats into a carrier for small critters such as ferrets, guinea pigs, hamsters, chinchillas, and hedgehogs. A limited number of Critter Kits will be available.

The Critter Kit consists of a mesh hammock and a litter tray. The mesh hammock, made of durable polyester, allows air to circulate around and below the pet, separating it from the litter. It also serves as cover for pets who prefer to remain hidden. The litter tray is made of easy-care and heavy-duty acrylonitrile butadiene styrene, known as ABS. ABS is acclaimed for its luster and its sturdiness.

On its own, Sleepypod Mini is three products in one: a carrier, a pet bed, and a safe car seat. Ultra plush bedding surrounded by a luggage-grade, ballistic nylon base forms the bed that easily becomes a carrier by simply zipping on its mesh dome. In a car, the crash-tested Sleepypod Mini becomes a safe car seat. Aboard an airplane, Sleepypod Mini fits comfortably under an airline seat.

Used in combination, the Sleepypod Mini may be used with its ultra plush bedding for colder climates and the Critter Kit mesh bedding utilized for warmer climates. For litter-trained pets, the litter tray is stable and strong enough to be used independent of the Sleepypod Mini.

Critter Kit Features
• Mesh hammock allows air to circulate around the pet thus separating it from the litter box
• Mesh hammock serves as a well-ventilated covering for pets that prefer to hide away
• Mesh hammock is made of durable polyester
• Litter tray is made of heavy duty ABS with a satin, pebble grain finish

Critter Kit Specifications
• Recommended weight: up to 3 pounds
• Hammock dimensions: outside is 12 (diameter) inches, hole is 4.75 (width) x 8 (length) inches
• Hammock weight: 2 ounces
• Litter Tray dimensions: top is 12.5 (diameter) inches, inside bottom is 10.5 (diameter) inches, depth dimension: 4 inches
• Litter Tray weight: 5.4 ounces
• Available color: black
